London based classes

Engineering Surveying course

- Regime to intermediate level: 9.00 am to 1.00 pm
- Advanced level: 1.30-5.30 pm

Each level is offered as a six day block either 6 weekend sessions in one month or 6 consecutive days from one Saturday to Thursday

To achieve a level 3 diploma in Engineering surveying and apply for a CSCS gold engineer surveyor card learners with little or no experience of using surveying equipment should enrol onto the beginner to advanced level course which offers one free repeat subject to availability of space.

This course is ideal for complete beginners to existing junior engineers, site managers and graduates in any discipline.

Learners also enjoy the benefit of online lessons which cover knowledge aspects of the level 3 Diploma in engineering surveying qualification.

- Beginner to intermediate level course £1495
- Beginner to advanced combined £2295
- Beginner to advanced level extended: £2995
- Beginner to enhanced level: £4315
- Existing engineers short training and assessment £1195

- Beginner to enhanced level course with life time training at weekends. This course is ideal for those changing career into engineering surveying and ensures that you become a fully competent engineer or surveyor able to earn up to £300 per day, within a year of completion of your course.
- Payment by instalment available
- Certificate and diploma fees of £360 extra charge
- All fees include VAT

What you get out of this course
